Product parameter

Model	QP630	QP800	QP1000	QP1250
Applicable reel diameter	Φ400-630mm national standard reel (customizable)	Φ630-800mm national standard reel (customizable)	Φ800-1000mm national standard reel (customizable)	Φ800-1250mm, national standard reel (customizable)
Pay-off range	φ0.5-φ12mm		φ0.5-φ20mm	φ0.5-φ30mm
Clamping method	Hand crank/cylinder			
Paying off speed	MAX300 m/min			
Lifting reel	Electric lifting			
Lifting motor	0.55KW with RV reducer		0.75KW with RV reducer	
Brake	2.5 kg magnetic powder control	5kg magnetic powder control	10kg magnetic powder control	
Maximum load	500 kg		1T	
Driving mode	Synchronous belt drive (chain drive)			
Fixed method	Fixed with expansion screws			
Machine color	RAL5015 blue			

Applicable line

Application: Mainly applicable to the production of electronic wires, stranded copper wires, power wires etc.

Mainly matched with the extruder, single twister and wrapping machine etc.

Cable

Rope Of All Kinds

Woven Mesh Tubes

Aluminium Wire

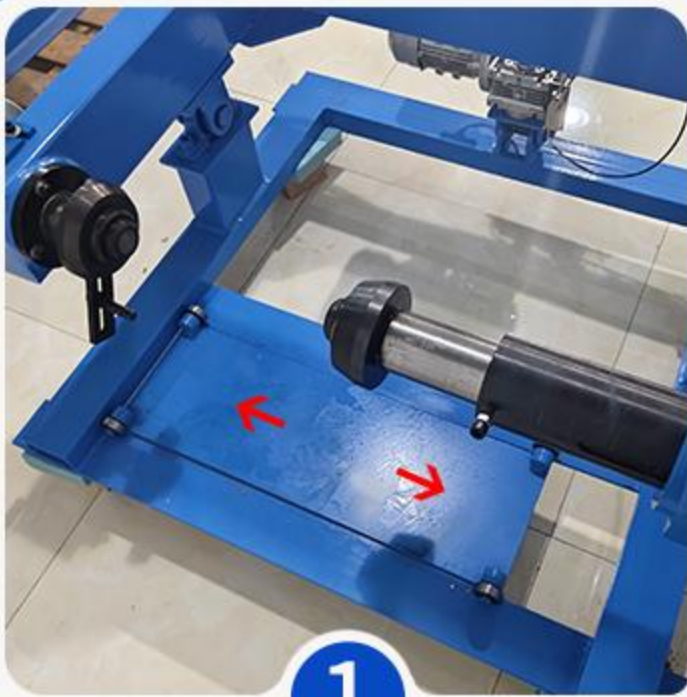

Copper Wire

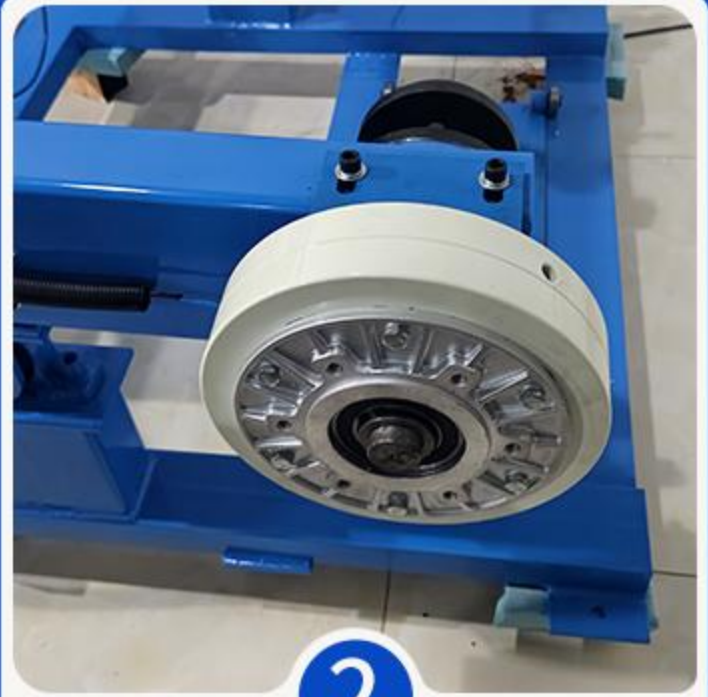

Power Cable
